

I discovered K-Love last spring when my cassette deck broke. I was excited to find a radio station that I did not have to worry about vulgar language or other offending comments. It would be devastating to the South Texas Area not to have this offense-free station. As an educator, I believe it is important to have a radio station that promotes a positive image, strong moral values, as well as excellent music. The fact that the station is commercial free is an added bonus. I am a financial supporter of K-LOVE and hope it continues to serve our community.
